

[HMS Medway Queen - Known Dunkirk veterans](#)

We have little “official” record either of Medway Queen’s crew at Dunkirk (other than the Commanding Officer) or of individual soldiers picked up. These notes are based on information supplied by the men concerned or their families. John Graves and Thomas Russell both left detailed accounts which were published by the PSPS in 1974 and which are now available to the Medway Queen Preservation Society.

[This document will be updated as and when additional information becomes available.](#)

Notes:

“Last trip” could be the last scheduled trip on June 1st - 2nd or it could be the additional trip made on June 3rd – 4th.

On either trip the crew could have told the men this was their last trip.
