

HMS Medway Queen - Known Dunkirk veterans

We have no “official” record either of Medway Queen’s crew at Dunkirk (other than the Commanding Officer) or of individual soldiers picked up. These notes are based on information supplied by the men concerned or their families. John Graves and Thomas Russell both left detailed accounts which were published by the PSPS in 1974 and which are now available to the Medway Queen Preservation Society.

This document will be updated as and when additional information becomes available.

Alfred Thomas Cook – HMS Medway Queen’s CO at the time of Dunkirk

Crew Photo -: believed to have been taken by Eric Woodroffe or Roger Matthews

Crew
